

**M\*Modal Fluency Direct –Epic Dictation using your Mobile Device as a handheld Microphone**

1. Through Citrix – Click the “Epic with Dictation” Link 
2. Log into your Epic Hyperspace account, select Department and OK the Message of the Day screen.
3. Verify that your name is displayed in the Microphone button. 
4. Cancel the Optimize screen if you have already completed this.
5. Click the Microphone button then click “Microphone Setup”
6. From the “Set up your Microphone dialog box”, click the Microphone dropdown and choose “Link an iPhone ...”  
A window appears with a four-digit PIN.

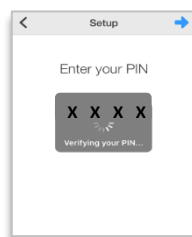

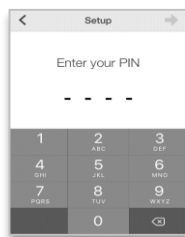

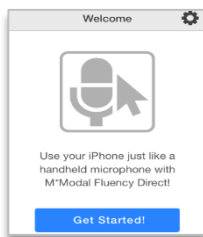

You will need this number after you have downloaded the M\*Modal Fluency Direct App on your iPhone.  
**(Note:** Time lapse may affect the installation – it is recommended to immediately proceed to download and continue the installation).

7. In the App Store  search for the free MModal Fluency Direct Mobile Microphone and tap “GET” to download. **NOTE:** If a problem exist try again

8. Tap the  App on your phone to start “MModal Fluency Direct Mobile Microphone”.

Tap through the screens and enter the 4 digit code – tap the blue arrow to connect.

A pop up will appear on your computer that reads – “Your iPhone has been linked to your account and can be used with Fluency Direct on any computer.”

9. The last step is to Calibrate your iPhone. **(Note:** A “quiet background” works best with an iPhone). Click the Calibrate button on the Microphone set up dialog box to dictate text using your iPhone.
